This compact "Energy Cabin" integrates battery storage, PCS, and smart EMS into a skid-mounted or trailer-ready enclosure. Replace noisy diesel generators with silent, clean power.

These cabinets are designed to store and manage lithium-ion batteries used in electric vehicles, allowing for quick and efficient battery swapping as an alternative to traditional charging methods.

All-in-one cabinet includes battery pack, inverter, and BMS, ensuring simple installation and compact space usage. Delivers 15KW rated power and 31.3KWh usable capacity, supporting both energy ...

Battery swapping station external energy storage cabinet grid-connected type Battery Swapping Station (BSS) proposes an alternative way of refueling Electric Vehicles (EVs) that can lead towards a ...

Together, these enclosures deliver 15 kW continuous (20 kW peak), operating silently and reliably even in harsh climates. Designed for telecom, data edge, industrial, and government applications, the ...

Key Features
oQuick battery-swap
oData monitoring
oEfficient operation
oAnti-Theft Tracking
oIntelligent management
oSafety protection
oPerformance guarantee
oProfessional customization

Discover advanced battery swap stations for electric vehicles (EVs), e-bikes, and e-scooters. Our smart charging and swapping solutions offer fast, efficient, and eco-friendly battery exchange, shared ...

Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery compartment, Internet of Things real-time monitoring system and cloud energy dispatching ...
