What are universal electric power cabinets?

Universal electric power cabinets are intended for indoor applications. The cabinet construction enables joining the cabinets in series in an easy way. They are produced in 19" overall dimensions.

Where are our cabinets made?

We regularly produce for major manufacturers and installation companies in Poland and abroad. Our cabinets are sold to Germany, Spain, France, Czechia, Russia, Italy and a few Asian countries. We have a team of highly qualified, experienced installators. The cabinets are assembled from the components chosen by the customer.

How many control cabinets are there?

Extensive Portfolio Our portfolio includes over 100 completed control cabinets of various sizes, complexity levels, and operating and control voltages.

How are control cabinets built?

Control cabinets, assembled by our skilled team and subcontractors, are built based on documentation provided by the client or designs created by our control system engineers using EPLAN or WSCAD software.
