---

Whether you have a switchboard, solar system, generators or other equipment on site, our systems are designed to be compatible with a wide range of existing installations. SUNSYS HES L is a modular ...

With an IP66 rating, pre-wired plug-and-play design, and slim wall-mounted form factor, this cabinet is ideal for homeowners seeking a discreet yet robust battery storage solution.

Our outdoor energy storage cabinet is an intelligent integrated management system that provides reliable and efficient energy storage for outdoor applications.

Integrated cabinet design, easy to deploy and install. Support 1P discharging to meet the power demand of high-power impact loads. Fully liquid-cooled design, suitable for harsh environmental scenarios.

Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ensures reliable backup power for industrial and commercial sites. Designed with a high discharge rate for ...

Compatible with photovoltaic (PV) integration, the system enables users to reduce electricity costs through smart energy management. For off-grid and backup applications, the IEB350kWh is also ...

It employs lithium batteries for energy storage, achieving 1P/1C charge/discharge and around 9000 cycles. In addition, the liquid cooled BESS can be deployed at constructions, mining and remote ...

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery ...

Supporting lower power charging and high power discharging, it delivers stable power for critical loads. This makes it ideal for high-demand scenarios such as construction sites and oilfields, ensuring ...

## 350kW IP66 photovoltaic battery cabinet for construction site

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...
