Homes with a battery system can store solar energy and enjoy flexibility in how and when they use their solar power. If you don't have a home battery system, timing your use of solar could help you reduce ...

Peter Anderson joined AGL's solar battery plan in 2021 and accepted \$1,000 off his battery installation costs in return for participating in a VPP or virtual power plant, a scheme where AGL ...

Save \$1,000s on a solar battery bundle thanks to the Federal Government's Cheaper Home Batteries program. There's never been a better time to buy a solar battery.

We've made it easy for you to make the most of solar panels and batteries at home. Start with a solar battery quote. Got a battery? Boost your solar battery value. Get extra savings and rewards from ...

AGL's Virtual Power Plant lets AGL briefly control your home battery during "energy events" to support the grid. In return, you receive bill credits: a welcome credit, ongoing quarterly ...

Learn about solar batteries, the gov rebate and rewards we offer if you already have a battery.

The world's changing, and so is AGL. While government rebates make batteries more affordable, AGL does the rest. With expert advice and support, adding a solar battery is easy with AGL.

I work for a solar company and we expect panels to pay for themselves in more like 5 years and a battery in 10, but note that battery warranties are usually 10 years so you're potentially not going to ...

With a solar battery bundle, you're able to self-power your home, and generate and store energy throughout the day while helping to reduce your energy bill and become less reliant on the grid.

AGL Energy has outlined plans to lock in another 1.4 gigawatts (GW) of grid scale battery storage projects over the coming year, in the race to transform its electricity generation portfolio from ...
