The Photovoltaic Micro-Station Energy Cabinet is a hybrid power compact solution for remote energy and outdoor telecom sites.

With the construction of photovoltaic plants, we not only want to achieve our climate protection goals, but above all, make a further contribution to the expansion of renewable energies in Austria.

Discover if Austria is the right location for your solar manufacturing facility. This guide assesses its industrial infrastructure, energy, logistics, and digital readiness.

Highjoule's site energy solution is designed to deliver stable and reliable power for telecom base stations in off-grid or weak-grid areas. By combining solar, wind, battery storage, and diesel backup, the ...

A historic moment was marked in the Styrian municipality of Dobl-Zwaring on 1 October 2025, when Eney and Energie Steiermark officially opened the new solar park - sending a strong ...

Apr 2, 2012; Austria aims to achieve a 100% renewable electricity production by 2030 with 1,000,000 homes having solar panels fitted by that date. 11 TWh of extra photovoltaics will be ...

This interview is part of the dossier "Soak up the Sun", in which experts from different fields of research at TU Graz share their insights on solar energy. We often read that PV systems ...

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.

This report provides an in-depth analysis of Austria's PV market and developments over the past year. 2023 was a landmark year for PV installations in Austria, with a total of 2.6 GW of new photovoltaic ...

Opportunities exist in Austria for providers of Photovoltaic (PV) technologies in the renewable energy sector.
