Is Tata Power installing a 100MW battery energy storage system in Mumbai?

Loading... Tata Power, India's largest integrated power company, has secured approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100MW Battery Energy Storage System (BESS) across Mumbai.

What are the benefits of a power supply system in Mumbai?

It will protect essential services including the Mumbai Metro, hospitals, airports, and data centers from large-scale blackouts. The system is also designed to optimize reactive power management, improve peak demand efficiency, and reinforce the city's overall electricity infrastructure.

What is a power backup system & how does it work?

The system will provide backup power to critical infrastructure, such as metro, hospitals, data centres, and the airport in the event of grid disruptions, and also play a key role in peak load management. The project comes at a time when Indian cities are grappling with the twin challenge of rising energy demand and the push to decarbonise.

Why is Tata Power launching a Bess project in Mumbai?

With real-time monitoring from Tata Power's Power System Control Center (PSCC), the BESS will strengthen Mumbai's grid resilience, support clean energy adoption, and fulfill energy storage obligations. The project underscores Tata Power's commitment to sustainable, future-ready power solutions.

Explore the best batteries in Mumbai for homes, offices, and industrial use. Learn how to choose reliable, long-lasting power solutions with Activolt's expert guide.

Get contact details and address of Power Backup Solutions, Power Backup Solution Providers firms and companies in Mumbai.
