-----

Brazil's outdoor BESS market offers tremendous opportunities for energy producers, industrial users, and remote communities alike. With proper system selection and deployment, these solutions can ...

The State University of Campinas (Unicamp) has launched the CampusGrid microgrid with battery energy storage system (BESS) on its Barão Geraldo campus in Campinas, São Paulo. ...

A 4.5 MWh BESS module integrated with ultra-fast chargers can charge at least 29 buses. Adopting this technology will help overcome grid infrastructure limitations, enabling the city's goal of ...

Lower battery prices and increases to intermittent power generation could boost battery energy storage systems (BESS) in Brazil, reaching roughly 7.2GW of installed capacity by 2040 or higher with new ...

KSTAR expanded its presence in the Brazilian market by launching the second generation of two BESS systems: BlueSpark, aimed at homes and small businesses, and BluePulse, aimed at ...

The debate made it clear that the viability of BESS in Brazil depends not only on technological advances, but also on a more competitive business environment, with tax reductions, ...

We believe grid-forming BESS isn't just a technical upgrade -- it's a strategic shift toward a resilient, efficient, and greener Brazilian energy landscape. Join us in pioneering this innovation.

Grid operator ISA CTEEP has started commercially operating a large-scale battery energy storage system (BESS) at the Registro substation in the Brazilian state of Sao Paulo. The 30 MW/60 MWh ...

The BESS primary objective was to achieve optimal reductions in electric energy expenses through effective energy arbitrage mechanisms. The procedural steps of the methodology ...

Discover how Brazil's outdoor Battery Energy Storage Systems (BESS) are transforming energy management
