Machine mount IP67 power supplies are fully potted, can be installed virtually anywhere in an industrial manufacturing environment, and provide efficient / reliable power.

Power supply units of the PSU67 series with IP67 protection enable simpler installation in modular plants. Intelligent diagnostics and configuration with and without IO-Link.

This heavy-duty enclosure securely houses a Stand By Power Supply and three (3) batteries along with equipment and cable required for fiber optic conversion and/or distribution.

The decentralized FIEPOS power supplies with high protection classes IP54, IP65 or IP67 were developed for flexible use directly in the field.

From compact, standard variants to more powerful versions with an IO-Link communication interface, you'll find a tough IP67-rated device that's ready to go to work in harsh environments. These devices ...

Phoenix Contact's IP67 power supplies give engineers flexibility to design applications to meet their specific needs by replacing power supplies located in large, centralized control cabinets with power ...

With classic power supply from the control cabinet, critical voltage drops occur due to the high currents through the long cables. To prevent this, ifm offers a powerful power supply for mounting directly in ...

They feature power supply, distribution, and protection equipment as well as radio systems and passive or active cooling. Contact us today to learn about all the options and to find a solution that is right for ...

Explore the features of the field mountable DN42xx power supply with IO-Link functionality using the interactive model below.

Communication power supply cabinet for field operations IP67

Phoenix Contact's new TRIO IP67 power supplies are designed to be installed on machines or in the field for powering small-load devices. Instead of long runs of cables carrying DC ...
