Who can use the e-bike charging station?

Each compartment has a power module with two fused sockets. In addition to business and public authorities, schools, universities, airports, restaurants, cafés, hotels and other public buildings can also be equipped with the e-bike charging station for outdoor use.

How much does Electra cost per kWh?

For public stations, the wide range of rates--from EUR0.20 to EUR0.79 per kWh depending on power and operator--offers solutions for every use case. Electra stands out with an innovative approach: its "Populaire" subscription at EUR19.99/month offers a rate of just EUR0.29 per kWh on ultra-fast stations up to 400kW.

What is an electric car charging station?

A charging station is a device that supplies electrical power to plug-in electric vehicles. An electric car charging station has various components, including wires, displays, cords, meters, controllers, and a charging port. These components are also known as electric vehicle supply equipment (EVSE).
