-----  
Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets, cases, cages, cable management, and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines, IL. This includes data center custom server cabinets, cases, cages, cable management, and PowerWhips products.

How big is the data center rack & enclosure market?

Data Center Rack & Enclosure Market size was valued at more than USD 3 billion in 2022 and is anticipated to record over 9% CAGR from 2023 to 2032. The growing application of IoT and multi-cloud architectural solutions are expected to influence industry development.

Who makes custom server racks?

Some of the biggest names in tech trust DAMAC to engineer and manufacture their custom server racks. Our team of engineers and operations pros. Understand how to create racks for custom layouts that evolve with new hardware requirements, increasing density needs and configurations.

How deep is a data center rack?

The standard Data Center Rack has a 4 ft depth and 2 ft width which means it occupies 1 floor tile in width and 2 in depth. This isn't always the case. Many server racks have a 3 ft depth and 2 ft width which is what popularized the "7-tile pitch" (seen in the photo above) a reality.

Whether you need custom data center racks or subcontracting support for your racking production, we deliver precision-engineered products backed by decades of metal fabrication expertise and ...

Precision sheet metal fabrication enables 40%+ thermal efficiency in our custom racks. Full OEM/ODM from design to deployment. Smart Customization: Why Us? Request Your Thermal Rack ...
