What is a battery energy storage system?

The Battery Energy Storage System is a composite machine consisting of various "machines" fitted together to form a whole mounted in a common housing. It is marketed as an energy solution that can be used in multiple configurations as part of a larger electrical system.

Are power supplies classified under HTSUS 8504.40.9520?

In your request, you suggest the Power Supplies should be classified under 8504.40.9520, Harmonized Tariff Schedule of the United States (HTSUS). We agree that these power supplies are correctly classified but to the first eight digits of the subheading only.

Are energy storage products a problem in 2024?

The 2024 Global Trade Compliance Report suggests 68% of customs disputes now involve energy storage products. Don't be part of that majority. Actually, scratch that--the SOC verification now needs to be done within 72 hours of loading per new EU regulations. See how fast this changes?

Do power supplies supply primary power to the SimplyGo POCs?

We would note that these Power Supplies do not supply primary power directly to the SimplyGo POCs for the operation of the machine and only charge the battery packs. In your request, you suggest the Power Supplies should be classified under 8504.40.9520, Harmonized Tariff Schedule of the United States (HTSUS).

Correct classification not only affects customs clearance efficiency but also relates to tax rebates and costs. Today, let's talk about the key points of classification for photovoltaic equipment ...

Navigating customs clearance for lithium battery energy storage cabinets requires expertise in international trade regulations and technical specifications. This guide breaks down the classification ...

Think of HS codes as your product's passport - the 6-10 digit numbers that make customs officials smile or frown. For energy storage inverters, the magic numbers are:

Well, when it comes to shipping energy storage systems globally, that detail is HS code classification. Last month alone, U.S. Customs held up \$37 million worth of lithium-ion battery shipments--all ...

Customs classification of energy storage power supply

In your request, you suggest the Power Supplies should be classified under 8504.40.9520, Harmonized Tariff Schedule of the United States (HTSUS). We agree that these power supplies are correctly ...

The item under consideration is referred to as a Battery Energy Storage System. The system will be imported under four model numbers: SBE 125, SBE 250, SBE 500, and SBE 1000, ...

The item under consideration is referred to as a Battery Energy Storage System. The system will be imported under four model numbers: SBE 125, SBE 250, SBE 500, and SBE 1000, and housed in ...
