Powerful, Proven Batteries Uses safe, high-performance lithium-ion modules tested for demanding data center backup and AI compute workloads.

We carry a full line of factory-assembled cabinets designed for data center UPS backup systems with pure lead agm batteries.

All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

C& D experts with extensive knowledge of data center uninterruptible power supply (UPS) are ready to help you configure your backup system. Let us help you build your best turnkey battery and cabinet ...

Based on Li-ion battery technology, the system supports the mix of new and used batteries and includes a three-level battery management system (BMS). These qualities ensure an intelligent battery ...

Designed by data center experts for data center users, the Vertiv(TM) HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, ...

Powered by a 90Ah ultra-high-rate nickel-zinc battery optimized for sub-5-minute runtimes, it is built for AI data centers that demand a safe, reliable, and sustainable way to manage rapid, repeated power ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

Designed for data center and critical applications, the External Battery Cabinet (EBC) can be used in conjunction with compatible UPS systems to provide prolonged system runtime during power ...

It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at

# Data Center Battery Cabinet 5MWODM

higher temperatures of up to 30 C and optimized for either 5- or 7-minute runtime. Built with lithium ...
