How much does a server rack cost in a data center?

The cost per single rack in the data center depends on a number of factors as follows: The barebones price of a normal server rack ranges from 1000 USD dollars to 5000 USD dollars depending on the material used to make it, its dimensions, as well as additional features that come with it.

How important is a rack in a data center?

When it comes to the design of the data center the rack is an incredibly important component since it is the structure that houses and supports many of the servers, storage, and network equipment. The cost per single rack in the data center depends on a number of factors as follows:

What is a server rack & network rack?

Open and enclosed server rack and network rack solutions for a variety of environments including data centers, server rooms, network closets, offices, industrial, and specialty applications. Bring networking and computing exactly where you want it - like the factory floor or warehouse - with NEMA & IP ratings to protect from dust and moisture.
