Why do Qatar impose tariffs on imports & exports?

In Qatar, the imposition of tariffs and duties on imports and exports serves as a crucial mechanism for regulating international trade and generating revenue for the government. Tariffs are essentially taxes applied to goods brought into the country, and they can vary significantly based on the type of goods being imported.

What are the limited tariff exemptions under the GCC customs union?

The limited tariff exceptions are: There are more than 600 duty-exempt goods under the GCC Customs Union in addition to exemptions granted to specific bodies by Law No. 40 of 2004. These include:

What is integrated GCC customs tariff?

Following Amiri Decree No 98 of 2024, the Integrated GCC Customs Tariff was implemented on 1 January 2025. The new tariff system comprises 12-digit tariff codes (previously 8 digits), so products can be classified for purposes such as determining the customs duty rate, non-tariff barriers, and statistics.

How many duty-exempt goods are there under the GCC customs union?

There are more than 600 duty-exempt goods under the GCC Customs Union in addition to exemptions granted to specific bodies by Law No. 40 of 2004. These include: Generally conducted at customs stations; goods are inspected for their quantity, properties and value, either partially (samples inspected) or fully (all items inspected).

The outdoor battery enclosure is a housing, cabinet, or box that can be used outdoor and specifically designed to store or isolate the battery and all its accessories from the external environment.

In alignment with the GCC Customs Union, Qatar imposes a 5% ad valorem tariff on the value of cost, insurance and freight (CIF) invoice of general cargo goods, excluding those exempted by law ...
