What are labtron safety storage cabinets?

Labtron Safety Containment Cabinets have adjustable shelves for secure storage of hazardous chemicals. These cabinets range from Corrosive Cabinets to Filtered Chemical Storage Cabinets. They are built with fire and corrosion-resistant material for enhanced durability. Their built-in insulating air spaces prevent chemical reactions and fire.

What is underbench flammable storage cabinet?

Underbench Flammable Storage Cabinet : Labtron Underbench Flammable Storage Cabinets provide compact, fire-rated storage for flammable substances in labs. They include sealed containment trays that manage spills and prevent chemical cross-contact.

What is a flammable storage cabinet?

Safely store, vent solvents and other flammable liquids with the Protector(TM) Solvent Storage Cabinet. Sure-Grip(TM) EX Flammable Safety Cabinet protects workers, reduces fire risks, and improves worker productivity by allowing the storage of flammable fuels and chemicals in code-compliant, 18-gauge steel safety cabinets.

What are hazardous materials storage cabinets?

Variously sized and shaped, constructed of appropriately durable materials, available as floor, wall-mountable, and countertop models, and may include shelves and/or drawers. Hazardous materials storage cabinets help you organize and segregate dangerous liquids in your facility or laboratory and keep them close to the point of use for ready access.
