Evecon is an Estonian energy company whose main activity is the construction of wind, solar and battery parks in Estonia, Latvia and Lithuania. By now, Evecon has completed renewable ...

Summary: This article explores how the Tartu Energy Storage Power Station addresses Estonia's renewable energy challenges. Discover cutting-edge battery technologies, regional energy trends, ...

But here's the kicker - it's not just about energy storage. This project pioneers vehicle-to-grid (V2G) integration with Tallinn's electric bus fleet, creating what engineers call a 'bi-directional power ...

Battery parks like the one being built in Kiisa play a critical role in balancing the power supply, especially as Estonia shifts toward renewable energy sources such as wind and solar.

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

Estonia's Energiasalv has secured EUR 11 million (USD 12m) in additional financing for its 500-MW/6-GWh pumped hydro energy storage project, including strategic investments from Alexela, Sunly, ...

The construction of the Zero Terrain Paldiski 500 MW hydro storage plant will involve going deep underground, says Mario Vee, Business development lead at Zero Terrain.

In 2025, Estonia, Latvia, and Lithuania will decouple from the Russian electricity grid, and the Baltic networks will be linked to the continental European grid. The battery farm is scheduled to reach its ...

Estonia rural off-grid energy storage power station

Summary: Estonia's power plant energy storage initiatives are reshaping the country's renewable energy landscape. This article explores the project's goals, technological innovations, and how it addresses ...
