-----

We manufacture these systems with retractable solar panels, batteries, charge controllers, and inverters, and can be customized to meet the specific power needs of a particular project or application.

The proposed Green Energy Circuit for Fiji will upgrade and improve climate resilience of the existing transmission network to enable evacuation of existing and planned solar, hydropower, and wind.

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

Major commercial projects now deploy clusters of 15+ systems creating storage networks with 80+MWh capacity at costs below \$270/kWh for large-scale industrial applications.
