They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.

The IP55-rated outdoor cabinet is a robust, weather-resistant enclosure designed to protect sensitive electrical, networking, or industrial equipment in harsh environments.

Varies specification upon customers" special requirements with 1 pc of the lighting system, smoke alarm, temperature sensor Flexible packing methods allow for convenient stocking and end-user delivery.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

Outdoor Cabinet incorporates tailored air conditioners that will keep even the most sensitive electronics functioning in extreme environments. Material: SPCC, stainless steel, galvanized steel or as ...

Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

Outdoor cabinets are for use whenever maximum protection is a must. The anti-vandalism qualities provides protection against electromagnetic radiation and conditions of high heat.

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.
