With integrated North American manufacturing facilities and in-house engineering expertise, we can quickly customize our cabinets and enclosures to precisely meet the needs of your specific network ...

Whether for remote telecom stations, solar hybrid systems, or industrial automation units, we provide fully assembled cabinets with integrated power, cooling, and control systems for plug-and-play ...

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

Designed for the next generation of telecom and industrial systems, these cabinets deliver maximum uptime, simplified integration, and long-term performance stability in outdoor environments worldwide.

The cabinet is designed to house telecom equipment and features a robust solar panel array on the top, along with batteries and a rectifier system for energy storage and distribution.

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

Purcell makes the decision easy, by offering specially engineered families of standard, modular, and configurable equipment cabinets to fit every deployment scenario.

This Hybrid Outdoor Telecom Enclosure is a fully integrated, weatherproof cabinet designed to house telecom power systems, batteries, and network equipment in outdoor environments.
