How much does a generator installation cost in 2025?

Quick answer: In 2025, a typical whole house generator installation costs \$6,000-\$30,000, driven by generator size (kW), brand, transfer switch, electrical upgrades, fuel line/permits, and local labor rates.

How much does a home Generator cost?

According to HomeAdvisor, the average price range for a complete home generator installation falls between \$1,458 and \$8,239, with the typical homeowner spending an average of \$4,841. The choice of the best generator brand can also influence overall expenses. There is a wide array of brands producing generators, and their price points can vary.

How much does a Generac Generator cost?

The Generac generator cost varies dramatically based on your power needs and installation complexity. Portable Generac generators start around \$500 for basic models, while whole-house standby units range from \$2,000 to over \$15,000. Installation adds another \$3,000 to \$6,000 to the total investment.

How much does a standby generator cost?

Standby generators are sized in kilowatts (kW), with larger homes requiring more power. Below are the average price ranges before installation: 7-10 kW: 2,000-2,000- 3,000 (powers essentials in small homes). 13-16 kW: 3,000-3,000- 4,500 (full coverage for homes under 1,500 sq. ft.).

Total costs for typical installations range from \$8,000 to \$15,000, but benefits extend beyond simple backup power provision. Property values increase with installed backup power systems.

Quick answer: In 2025, a typical whole house generator installation costs \$6,000-\$30,000, driven by generator size (kW), brand, transfer switch, electrical upgrades, fuel line/permits, and local labor rates.
