The Belt and Road Initiative, alternatively known as One Belt One Road (OBOR), represents a monumental economic and infrastructure undertaking spearheaded by China.

A broadband communication satellite network with "one belt and one road" can be set up to jointly develop mobile, broadband and multifunctional composite communication satellites.

The Hong Kong SAR has held the Belt and Road Summit eight times, and the Macao SAR has held the International Infrastructure Investment and Construction Forum 14 times, which ...

The initiative was launched by Chinese Communist Party (CCP) general secretary Xi Jinping in 2013 while visiting Kazakhstan. It aims to invest in over 150 countries and international organizations ...

The Belt and Road Initiative remains central to China's strategy, mixing mega projects, smart investments, and geopolitical influence.

This document presents the results of the study and comparative analysis of ICT connectivity for the Belt and Road Initiative (BRI) in China-Central Asia-West Asia Corridor.

The study uses network analysis to map out trade connectivity changes induced by the BRI, revealing that while Asia and Europe have seen significant benefits, Central Asian and African countries lag ...

BRI infrastructure projects connect China with different parts of the world: by land with regions such as Southeast, South, and Central Asia, as well as Europe; and by sea with coastal areas, including ...

China's economic expansion to world regions has addressed the challenge of industrial overcapacity at home. BRI has provided China with a diversified foreign policy outlook wherein new economic ...

Hybrid Network Cabinets along the Belt and Road Initiative

Nine research agendas are suggested to revitalize the infrastructure projects of the BRI in association with global logistics distribution centers along the Belt and Road. Each agenda is ...
