-----

Italy's energy mix is like a well-crafted risotto--complex but delicious. With 55% of electricity already coming from renewables (hello, hydro and solar!), the country's next challenge is ...

In the first three months of 2025, five new battery storage plants went into operation, bringing the installed capacity of our battery energy storage systems (BESS) in Italy to 1 GW.

“It is reasonable to expect that, when fully operational, all new renewable energy plants will already be installed with integrated storage systems. And where the market does not cover the...

As Italy advances its commitment to achieving climate neutrality by 2050, the demand for reliable, scalable energy storage solutions--particularly battery cabinets--has surged.

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions--Lazio, Puglia, ...

Italy now stands as one of Europe's most important markets for battery storage systems. The conclusion comes from Italia Solare, commenting on Gaud&#236;-Terna data published yesterday. ...

The utility-scale battery storage market in Italy is drawing huge interest, writes Solar Media Market Research analyst Josh Cornes.

The onshore wind portfolio and integrated storage systems developed by Gruppo Hope, comprising six projects in the Italian regions of Latium, Apulia and Tuscany, have been acquired by ...

Italy's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia.

Italy's Ministry of the Environment and Energy Security (Mase) has issued final approvals for five new

## Italy new energy adds battery cabinets

battery energy storage system (BESS) projects, paving the way for 361 MW of new ...
