Who owns solar power in Kiribati?

The government-owned Public Utility Board supplies diesel generated power in South Tarawa. The Kiribati Solar Energy Company provides electricity to outer islands through solar home systems. Initially formed in 1984 by an NGO, the company is now owned entirely by the government. There is little private sector involvement.

Does Kiribati have a public procurement system?

In August 2018, ADB engaged a senior procurement specialist that started the implementation of the KPPRP, to set up the public procurement system. By December 2019, Kiribati has a new Public Procurement Act 2020 and Public Procurement regulations 2020 to guide public procurement.

What is the Kiribati grid connected solar PV project?

Ending in 2018, the Kiribati Grid Connected Solar PV Project is coordinated by the World Bank and funded through a US\$1 million grant from the Global Environment Fund (GEF) and a US\$2.92 million grant from the Government of Australia, through the Pacific Regional Infrastructure Facility (PRIF).

Does Kiribati have a new Public Procurement Act 2020?

By December 2019, Kiribati has a new Public Procurement Act 2020 and Public Procurement regulations 2020 to guide public procurement. The GoK welcomed the support but requested continued support to train the CPU and line agencies on the laws/regulations as well as guiding materials to properly embed this new legislation.
