What is a srb10 Battery Cabinet?

The SRB10 Battery Cabinet is an outdoor-rated enclosure that can hold up to 10x SR5K-UL battery modules for a total energy capacity of 50 kWh. The cabinet is outdoor-rated with automatic temperature control. Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects.

What breaker is required for a 20-120 kW UPS?

For UPS rating 20-120 kW: In parallel systems with three or more UPSs, a circuit breaker must be installed on the output of each UPS. The unit output disconnect device (UOB) instantaneous override (Ii) values must not be set higher than 1250 A.

How much does a battery module weigh?

NOTE: One battery module weighs approximately 32 kg (70.5 lbs). The limited warranty provided by Schneider Electric in this Statement of Limited Factory Warranty applies only to products you purchase for your commercial or industrial use in the ordinary course of your business.

What is a good voltage for a 30 kW battery?

NOTE: The values for 30 kW, 60 kW, and 75 kW in battery operation are preliminary values. 0.7 leading to 0.7 lagging without derating. The voltage is 1.6 to 1.75 per cell depending on discharge ratio. NOTE: Specific configurations may differ from the general constraint shown above.
