What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range, you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

What is a PCI compliant network rack?

Designed specifically for sidemount large switches such as Cisco's Nexus or MDS series, this PCI Compliant, oversized network rack will redirect airflow to properly vent equipment. Switch can be mounted front or rear facing as your application requires. Made in the USA, these racks ship fully assembled allowing you to unpack and rack.

Are RSP racks PCI compliant?

Like the RS series server racks above, the PCI Compliant, RSP rack utilizes similar modular pieces, with perforated doors. Manufactured 100% in the USA, this superior quality Rackmount enclosure comes standard with a fully perforated (63% open) front and rear door for maximum airflow.
