since the invasion of Ukraine triggered an energy crisis in Europe. To support that ambition, the Minister for Energy Transition introduced a bill in September 2022 designed to speed up the rollout of ...

French floating solar developer HelioRec has secured a major step forward in its offshore energy ambitions after receiving Approval in Principle (AiP) Level II certification from Bureau...

Building on the technological advances of its first demonstrator, Sun's#232;te, which it will replace, the M#233;ga S#232;te project will develop and deploy a 1 MWp offshore solar farm to supply low ...

PPE3 reinforces France's commitment to solar energy. By 2030, installed photovoltaic capacity is expected to reach 54 GW, while by 2035, it is projected to be between 65 and 90 GW, far ...

Dredging on liquid hydrogen: feasible or not? When Heavyweights Go Traveling Asisto and Bachmann collaborate on Mammoet's SK6000 crane project.

SolarinBlue has deployed what it claims are the first offshore floating solar modules in the Mediterranean Sea and the first offshore France.

SolarinBlue, which develops offshore photovoltaic solar parks for difficult conditions (waves of more than 10 meters, winds of 200 km/h), has obtained EUR6 million in funding for its 1 MWp...

According to SolarinBlue, the solar farm will cover one hectare and is expected to produce more than 1.3 gigawatt-hours annually, with the electricity generated being transported via a ...

German renewables developer ABO Energy GmbH & Co KGaA (ETR:AB9) on Wednesday announced it has wrapped up the sale of three solar park projects in France with a ...

SolarinBlue designs a floating photovoltaic solar farm technology, adapted to harsh conditions of open seas,

Offshore solar energy in france

and is developing a portfolio of offshore solar projects in France and ...
