What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

What are solar roof tiles?

Solar roof tiles (or photovoltaic roof tiles) are a way to seamlessly integrate solar technology into your home without compromising the natural design of your home. It works on the same principle as traditional solar panels. Therefore, solar roof tiles combine the functionality and aesthetics of BIPV, allowing for uniformity of design!

What are solar tiles & how do they work?

It significantly improves the efficiency of solar cells, leading to higher power generation and reduced electricity generation costs. Solar tiles are roof-integrated BIPV modules identical to conventional roof tiles.

The most ideal times for solar energy generation in Port Vila are during the summer and spring months. These seasons offer the highest daily energy output, making them particularly ...
