when opening my report user-confusion may arise from the fact that a date slicer is not automatically extended to the current date of data available. My question therefore is: Does anyone ...

Evaluating diverse storage technologies on a common scale has proved a major challenge, however, owing to their widely varying performance along the two dimensions of energy ...

Is this just part of the building process? Or If I have one query A that loads across the network and 5 follow up queries that refer to query A will power query / excel be reading the across ...

In the specific solution, this study combines the distributed power generation system and the hybrid energy storage system, while using the static reactive power compensation system and ...

I use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or reject the ...

It is important to carefully evaluate these needs and consider ...

The fact that "the wind doesn't always blow, and the sun doesn't always shine" is often used to suggest the need for dedicated energy storage to handle fluctuations in wind and solar production.

Create HTML table from array of Objects in Power Automate Asked 1 year, 3 months ago Modified 1 year, 3 months ago Viewed 7k times

There are four major types of wind turbine models used in transient stability studies which will each be considered in detail shortly based on the original model names from about 2012 for what we call the ...

I am writing a Power automate to copy emails from an Outlook mailbox to SharePoint. I am using Get emails

(V3) and want to retrieve emails received on a particular date.
