Is Romania a Bess market?

"As other European BESS markets become increasingly saturated,Romania stands out," said Evangelos Gazis,Aurora's head of Southeastern Europe,adding that the investment case for storage is strengthened by wind and solar's rapid expansion driving high volatility in wholesale and balancing markets. Interesting activity

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up,say local analysts and insiders. Irene Mihai,policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

Is Romania's battery storage market ready for takeoff?

Romania's battery storage market is gaining momentum,but it's not yet ready for takeoff. A recent Aurora Energy Research report reveals strong investor interest and promising early projects,but also highlights some regulatory gaps and unclear market access.

Should Romania adopt a hybrid approach?

Romania could benefit from adopting a hybrid approach: enabling merchant projects while simultaneously introducing support mechanisms that de-risk first-mover investments and accelerate grid integration. Conclusion Romania's BESS market is,in many ways,on the brink.

The national grid is experiencing rising intermittency from photovoltaic and wind additions, while market actors increasingly recognize that stability and resilience depend on storage ...
