-----  
What is commercial solar powered portable lighting?

Commercial solar powered portable lighting is an efficient way to drastically decrease electricity bills. Our 100% off-grid system helps you save big money as it does not require trenching and has low maintenance costs for temporary construction lighting. Greenshine has more than 30 years of experience in offering portable led light towers.

How many watts is a Porta solar light?

The industry's first and only above ground Portable Solar Light! The Porta comes in 20W,30W and 40W,20' pole with both single and dual fixtures. Our Solar Lighting Tower comes in several options including 4 x 25w floodlights,4 x 50w floodlights,and 4 x 100w floodlights.

Why should you choose a portable solar light tower?

Less maintenancemeans less time and money spent on temporary lighting for construction sites. Our portable solar light towers are constructed with mono-crystalline panels that are the most efficient on the market today (20% of total possible power),surpassing poly-crystalline (rated at 15% efficiency).

Are portable construction lights silent?

Because these portable construction lights are powered by the sun,they run completely silentand create no vibration. Preventative maintenance is a non-issue for our temporary lighting solutions with only the batteries that need to be changed every 5-7 years for construction led lighting.

Made with chemicals safer for human health and the environment. Manufactured on farms or in facilities that protect the rights and/or health of workers. Discover more products with sustainability features. ...
