The EU has doubled its solar capacity in the last three years. How have subsidies made this possible, what support is still available, and what still needs to happen?

Solar energy is advancing strongly across Europe thanks to falling costs and its growing role in electricity generation. In 2025 it exceeded capacity targets and became the main source of ...

Solar power consists of photovoltaics (PV) and solar thermal energy in the European Union (EU). Solar power is growing in every EU country.

OverviewEU solar energy strategyPhotovoltaic solar powerConcentrated solar powerSolar thermalOrganisationsSee alsoSolar power consists of photovoltaics (PV) and solar thermal energy in the European Union (EU). In 2010, the EUR2.6 billion European solar heating sectors consisted of small and medium-sized businesses, generated 17.3 terawatt-hours (TWh) of energy, employed 33,500 workers, and created one new job for every 80 kW of added capacity.

Technical overview of how wind and solar overtaking fossil fuels affects the EU power system, grid design, and industrial applications.

Solar energy has seen substantial growth across Europe over the past decade, with the installation of solar photovoltaic (PV) systems reaching a record 56 GW across the EU 27 in 2023, ...

Explore Europe's 2024 solar boom, with gigawatt-scale projects in Germany, Spain, and beyond driving a historic shift in the continent's energy landscape.

The European solar market slows to 65.5 GW of new installations in 2024, marking just a 4% growth compared to 2023. Explore the challenges and future outlook for solar energy in Europe ...

Solar electricity systems in western europe

In our recent LinkedIn post highlighting the increase in solar output this year - a near 22% gain in Western Europe - we considered some of the drivers that contributed to that result. Now ...

In short: Axpo subsidiary Urbasolar is building Europe's largest rooftop solar plant on the OMEGA logistics building in Dourges (northern France) with a capacity of 18 MWp - 1 MWp of which is for ...
