Atlanta-based Georgia Power has filed a request with the Georgia Public Service Commission seeking certification for two new solar-plus-storage projects totaling 350MW.

Included in the request are power purchase agreements (PPAs) from existing resources, as well as new, company-owned natural gas generation, battery energy storage system (BESS) and ...

We work closely with Georgia's universities to identify cutting-edge research regarding energy storage and provide companies with access to the latest applied research. We connect companies to ...

GA Solar supports the distributed solar & storage industry and its customers across the state of Georgia. Our work benefits Georgia businesses, workers, residents, and ratepayers.

Georgia's solar and storage market has taken off in recent years, landing it a top spot in SEIA's national solar rankings. During the 2024 session, an industry-supported decommissioning bill was passed ...

Explore Georgia's top 21 energy storage companies offering innovative solutions like battery storage and power systems. Featuring Stryten Energy and Hannah Solar.

Georgia Power is seeking 500 MW of energy storage that can discharge for at least two hours. The energy storage can be standalone, or with a new or existing renewable resource.

We have constructed and are operating 16 solar farms and additional demo facilities across the state of Georgia, many in partnership with military installations. The largest, at 128 MW of capacity, is located ...

Our Hickory Park project in the southwest of the State of Georgia is RWE's largest solar storage project in the US to date. The park is composed of an 40MW 2-hour battery energy storage system and ...

Here are the solar projects in Georgia expected to come online in the next 18 months. These projects are
