Providing solar energy solutions for households and businesses is crucial to incorporating more Congolese people into electrical grids, but many in poorer, remote regions in the DRC also ...

Since 2013, Altech, a Congolese-owned solar home system company, has been lighting homes in some of the remotest parts of the Democratic Republic of the Congo (DRC).

Indian IPP, Soleos, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). The US\$...

Democratic Republic of Congo on Thursday signed a \$100 million solar-hybrid power deal with a consortium led by Gridworks, to provide electricity to half a million people across three cities that ...

Despite these challenges, there is promising market potential for off-grid solar in the DRC.

The Democratic Republic of Congo (DRC) is endowed with abundant natural resources, including significant solar energy potential. As the world shifts towards renewable energy sources, ...

The Kolwezi Solar Power Station is a proposed 100 MW (130,000 hp) solar power plant in the Democratic Republic of the Congo. The power station is under development by a number of independent power producers and international financial institutions. The energy from this solar farm will be sold to the Sociéte Nationale d'Electricité (SNEL), the national electricity utility company.

Soleos Energy is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar PV power project.

In addition to connecting more than 600 households to solar power by the end of the year, Orange and Bboxx are currently also working towards the construction of 24 solar-powered mini ...
