Cape Town is on track to become the first city in South Africa to own and operate a solar power plant, marking a significant move towards energy independence.

The \$342 million project will be South Africa's most extensive single-unit solar installation, positioned to meet high industrial energy demands and reduce reliance on non-renewable energy.

Redstone CSP in South Africa will be done by PowerChina. One of China's biggest companies, the Fortune 500-listed PowerChina, is establishing itself among energy sector players ...

Chinese solar panel manufacturer, Trina Solar, has announced its partnership with China Energy International Group and China Gezhouba Group to power Mooi Plaats 240MW solar PV ...

Located in the town of De Aar in South Africa's Northern Cape Province, the project will have a total installed capacity of 342 megawatts, making it the largest single-unit solar power plant in South Africa.

Cape Town, Sept. 3 (Xinhua) -- Upon arriving at Postmasburg, a town in the Northern Cape Province in South Africa, one may be pretty amazed by a towering structure that heaves into view.

China's PowerChina signed an EPC contract with SolarAfrica Energy for the De Aar Central Solar Power Plant in South Africa's Northern Cape Province. The project, based in the town ...

Within just two years, the largest clean energy power plant of South Africa has emerged out of nothing on the vast wilderness in Northern Cape. It is the 100MW Redstone concentrated solar ...

Powerchina has switched on a 100 MW solar tower in South Africa. The concentrated solar power (CSP) project will supply 480 GWh of clean energy to the country's power grid each year.
