What is an outdoor server rack?

Outdoor server racks are designed to house a wide range of equipment, including servers, networking gear, power supplies, and other electronics. They can offer the protection and security necessary to house a single server or an entire data centre, depending on your networking requirements.

Are smart stadiums the answer?

With today's sophisticated home entertainment systems and the latest stats and updates available on mobile devices, they need to find new ways to fill the stadium, compel fans to spend more, and keep everyone safe. Smart stadiums are the answer.

What is Intel's IoT Smart Stadiums 4 Smart Stadium app?

Intel's IoT Smart Stadiums 4 Smart stadium apps can allow fans to watch replays during the game, seeing the exact replays shown by the studio as if they were watching at home on their TV. It's possible to watch the game live and get stats and other info related to the game.

How do stadium operators compete against the at-home experience?

Competing Against the At-Home Experience Although there's nothing like a live sports or entertainment event, stadium operators are still challenged to lure fans away from the comfort of their homes, big-screen TVs, surround sound, and refrigerators nearby.

With integrated thermal management and rugged construction, our climate-controlled server racks provide long-lasting protection, helping to maintain network integrity and uptime.

IP65 is not a "bad" rating. It provides solid protection against dust and against water from low pressure jets. In controlled outdoor environments, or under shelters where direct exposure is limited, it can still ...

By utilizing virtualization and hyperconverged infrastructure, the stadium runs on a compact server setup. The stadium's infrastructure includes 229 telecom rooms condensed into two racks with Cisco ...

Tropical Climate: In Southeast Asia's humid environment, a single hotspot in a poorly ventilated rack can quickly lead to condensation, risking short circuits and hardware failure.

Sports stadium uses Southeast Asian industrial server racks with IP65 rating
