Why does Saint John energy use a battery system?

It also helps store extra electricity when the demand is low and helps address peak energy demands during the coldest winter months. The battery system may also help Saint John Energy provide power to customers during power outages due to storm events.

How can I find a storage unit in St. Johns?

To find a storage unit in St. Johns, enter your ZIP code into EZstorit.ca. You'll be presented with a list and a map of self-storage units in your area. Whether you need a storage unit for personal reasons or business use, you'll have a number of options to choose from.
