The power solution for enterprise server room is an important task for the team electrical engineers. As a UPS set to our key customers in the giant businesses are three phase UPS from direct APC Schneider.

Optimise three phase voltage in your server room with APC PDUs. Smart, reliable, and built for efficient power management, remote control, and uptime.

Our smaller, lighter and modular UPS design makes it easier for you to find space for your server's battery backup - plus you can add or remove modules to support changing power requirements.

Our comprehensive range of 3 phase uninterruptible power supply solutions are meticulously designed for server rooms and data centre applications, starting from 10kVA.

Our UPS Rental service provides reliable and secure power, ensuring your operations run smoothly without any interruptions. A three-phase UPS (Uninterruptible Power Supply) is a type of power ...

What Is A 3Phase Power Supply?3-Phase Monoblock UpsModular Three Phase SystemsThe traditional double-conversion 3-phase UPS for a data centre application has been a monoblock design. A monoblock is a single standalone UPS system that can support the load with uninterruptible power from a stored energy source i.e. a battery set (lead acid or lithium) and if connected a generator supply. Monoblock UPS systems can be scaled to ...See more on serverroomenvironments .ukEmail: projects@serverroomenvironments.uk
