What is the IP65 enclosure?

The IP65 Enclosure has been based on the principals defined in RT/E/PS/00028 Network Rail Product Specification. The main Trackside equipment housing incorporates an equipment chamber and a separate battery chamber independently accessible. The active electronic equipment chamber (referred to as a Thermal Chamber) has:

What is the IP55 specification for outdoor telecoms street enclosures?

We manufacture our outdoor telecoms street enclosures to IP55 specification using galvanised steel. Compliance with IP (Ingress Protection) ratings and NEMA (National Electrical Manufacturers Association) standards certifies their ability to withstand environmental conditions and protect sensitive equipment.

Are industrial cabinets IP56 rated?

Available in five standard sizes, the industrial cabinets can be supplied with ventilation or without for IP56 rated protection. These IP rated enclosures have double skinned insulated walls and roof providing weather resistance, and a reinforced double skinned insulated door to provide optimum protection.

What is IP66 IK10 rated?

IP66 IK10 rated for outdoor network, energy, and industrial applications. IP66 IK10 rated for data, communications, and industrial control systems. IP69K and IECEx electrical enclosures, terminal boxes and pushbutton enclosures. Fans, vents, heaters, and air conditioners for reliable electrical enclosure climate control.
