Is a \$453 million battery storage facility coming to Victoria?

A \$453 million battery storage facility planned for Victoria's north-east has been approved by the state government. Premier Jacinta Allan announced the project in Beijing after meeting representatives from Trina Solar, the Chinese company building the 500-megawatt Kiewa Valley project.

How many large-scale storage systems does Victoria have?

Victoria has 12 commissioned large-scale storage systems and 3 in commissioning - with a total output capacity of 1028 MW and storage capacity of more than 1.7 GWh. Storage capacity = how much total energy is stored in each battery. Output capacity = how much energy a battery can provide at a given time.

How many energy storage projects are there in western Victoria?

In March 2018, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative - one in Ballarat and one in Gannawarra. Construction for the Ballarat and Gannawarra Energy Storage Systems was completed in late 2018. Both batteries began operating over the summer of 2018 and 2019.

Where is a big battery project in Victoria?

A big battery project in Victoria's north-east has received state government approval, bringing 1GWh of storage capacity one step closer to the grid. The 500MW/1000MWh Kiewa Valley BESS, to be developed by Trina Solar, will be located near the Dederang Terminal Station, approximately 3km from Dederang township.

Victorian Premier Jacinta Allan has announced the approval of a major battery energy storage system in the state's north-east during a trip to China. Ms Allan says the \$453 million project ...

Discover all the amazing attractions Victoria has to offer, from the famous sprawling gardens and whale watching to the beautiful coastal castles.

This ambitious endeavor involves a 200MWh battery energy storage system (BESS) paired with a solar photovoltaic (PV) power plant, highlighting Victoria's commitment to expanding its ...

As Victoria's official visitor resource, our friendly, knowledgeable staff will answer your questions and more. Drop in for free brochures and maps, to book hotels and tickets locally and to make ...

Dine Around and Stay in Town Victoria program dates return from January 23 through February 8, 2026 with over 60 restaurant participants and 14 hotels to choose from.

Household batteries are about 10 KW and are designed to help you store your own rooftop solar power at home, to avoid paying retail costs in the peak periods or overnight. Opened in ...

The \$453 million project has been fast-tracked under Victoria's Development Facilitation Program. When complete, the BESS will be capable of storing excess renewable generation during ...

A major test of that capacity is the proposed Kiewa Valley Battery Energy Storage System, a joint effort by Beca and Trina Solar designed to deliver 500 MW / 1 GWh of storage with a ...

As global electricity demand grows 3% annually (IEA 2023), Victoria's manufacturers are answering the call with cutting-edge storage solutions that act like a " giant battery for the grid ". From solar farms to ...

The complex will be made up of four 250-MW units and will be able to store enough electricity to power 345,000 homes during peak demand. It will be designed to soak up and store ...
