What is the Wellington Battery energy storage system?

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an important role in the future electricity system. Construction of the project will be undertaken by AMPYR's preferred construction contractors Fluence and RJE Global.

Do you know the Wellington storage centre?

Yes, you know the one! The Wellington storage centre is just 1.8 km from the Wellington GPO and inside you will find six levels of high quality self storage units with generous, clean, bright corridors which are proudly cared for by our dedicated Wellington Storage team.
