How much does a 100kW Solar System cost in Australia?

A high-quality 100kW solar system in Australia typically starts from around A\$39,999, making it a cost-effective choice for medium to large businesses, schools, warehouses, shopping centres, or community facilities. Installation usually costs between A\$1,000 and A\$3,000, depending on your roof type, system complexity, and location.

What is a 100kW Solar System?

A 100kW solar system is a large-scale energy setup that's perfectly suited for medium to large businesses, schools, warehouses, shopping centres, or even community facilities that have high energy demands. In Australia, systems of this size can make a huge difference to electricity bills, often cutting them down by a significant margin each month.

What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.

What is the warranty on a 100kW solar panel system?

Our 100kW solar panel system comes with a 25 year performance warranty, 10 year manufacturer's warranty, and 5 year warranty on workmanship (including installation). To find out if a 100kW solar panel system is right for your large operation, give us a call on 1300 274 737 or get a quote now.
