Where is Xiong'an New Area?

An aerial drone photo taken on March 30, 2024 shows the business service center in Xiong'an New Area, north China's Hebei Province. In April 2017, China announced a plan to establish the Xiong'an New Area, which spans the Rongcheng, Anxin and Xiongxian counties, as well as some adjacent areas in north China's Hebei Province.

What are the regional and sectorial plans for Xiong'an New Area?

The four regional and sectorial overall plans include staged plans for spatial design and work on construction of the Xiong'an New Area. Xiong'an New Area is made up of three Hebei Province counties, Xiong, Rongcheng, and Anxin, as well as some surrounding areas and is located about 105 km from both Beijing and Tianjin.

Is Xiong'an a city of the future?

The Xiong'an New Area that is attracting international interest is seen in China as a city of the future and a millennium plan, being designed and built on the basis of ideas such as being green, smart, cultural, and creative that reflect trends in future cities and what it is that urban development in China has been seeking to achieve.

What is the center of Xiong'an?

The "center" is the 198 km<sup>2</sup> startup area of Xiong'an that will form its city proper. The five auxiliaries are Xiong county, Rongcheng county, Anxin county, Zhaili Village, and Zangang Town, which are located outside the startup area. The "multiple nodes" refer to the many distinctive small towns and scenic villages in the region.

The new area aims to relieve Beijing of non-essential functions related to its status as the nation's capital, while also advancing the coordinated development of the Beijing-Tianjin-Hebei region.
